WE'RE OPEN PROVIDING GENERAL SURGICAL SERVICES – DARRIN HANSEN, MD

Dear Friends,

We hope this letter finds you safe and well.

The office of Dr. Darrin Hansen, General Surgery and Lap-Band is open during this time of uncertainty, for consultations and office surgery for patients without viral symptoms or by Telemedicine for anyone. We are here to serve patients in need of surgical procedures, on a case by case basis. There are procedures that can be done in the clinic, without having to wait for hospitals and surgical centers to open for elective procedures such as, small hernias, hemorrhoids, lipomas, etc.

During this time of high-risk exposure of viral illness, individuals should not have increased complications from delay of surgical conditions. If you have a patient with severe symptoms for gallbladders, hernias, infections, cancer and others, needing surgery, it can be elevated to “urgent” rather than “elective” on a case by case basis. If conditions can wait for a less risk time, a care plan can be established and at the first opportunity be scheduled. I can guide this process for the best possible outcome.

Please feel free to contact our office with any questions or concerns.

Sincerely,

Dr. Darrin F Hansen, MD
